Serial No. : 10/808,689
Filed : March 24, 2004

Attorney's Docket No.: 17084-004017 / 402P
Supplemental Information Disclosure Statement

The documents cited on the Forms PTO-1449 are in the English language. Hence, in accordance with the requirements of 37 C.F.R. §1.98, as amended effective March 16, 1992, no further explanation of the listed items is necessary.

Provided herewith is a copy of a European Examination Report, issued July 12, 2006, in connection with corresponding European Patent Application No. 97920284.3 (Attorney Docket No. 17084-004EP1/402EP), which is a national stage filing of International Patent Application No. PCT/US97/05911, which claims priority to U.S. Patent Application Serial No. 08/629,822. The instant application is a divisional of U.S. Patent Application Serial No. 09/724,693, which is a continuation of U.S. Patent Application Serial No. 08/835,682 and ultimately claims priority to U.S. Patent Application Serial No. 08/629,822. Hence this application and European Patent Application No. 97920284.3 claim priority ultimately to the same parent application. In the European Examination Report, Examiner cites three documents: D4 (WO9532297), D18 (Brown *et al.*, "Dissecting the centromere of the human Y chromosome with cloned telomeric DNA" *Human Molecular Genetics* 3(8):1227-1237 (1994)) and D19 (Nakahori *et al.*, "A human Y-chromosome specific repeated DNA family (DYZ1) consists of a tandem array of pentanucleotides", *Nuc. Acids Res.* 14(19):7569-7580 (1986)). D4 has already been made of record in the instant application in an Information Disclosure Statement, supplied with Forms PTO-1449, filed July 16, 2004. D18 and D19 are being made of record in this Supplemental Information Disclosure Statement, supplied with Forms PTO-1449 and copies of the cited documents.

Although these documents are made known to the Patent and Trademark Office in compliance with Applicant's duty of disclosure, such disclosure is not to be construed as an admission by Applicant or Applicant's representative that any of the information, singly or in any combination thereof, is effective as prior art against the subject application. In accordance with 37 C.F.R. §1.97 (g) and (h), the filing of this Supplemental Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 C.F.R. §1.56 (b) exists.

Applicant respectfully requests that the Examiner review the foregoing documents and they be made of record in the file history of the above-captioned application.
